

For international tourists

Common people, Common life in local village

FREE experimental tour to interact with local people in their homes

We, the University of Hyogo, are offering a free special experimental tour for international tourists to interact with local common people in their own homes. In the rural area around Kinosaki, many traditional houses and lives still remain. These spots will give you the chance to experience authentic Japanese common people's lives which you cannot experience in urban areas. Since it is usually difficult for international tourists to enter these houses and interact with these people, this is a very special opportunity.

In this tour, you will be able to enjoy a program involving interaction with local people by our arrangement. Come make great memories and experience Japanese common life through this tour!

■ Date and Program

▪ **June 14th (Fri):** Exploring a Japanese garden outside of a local's home, pine tree pruning experience, rice cracker-making experience

▪ **June 15th (Sat):** Exploring a Japanese garden outside of a local's home, tea ceremony experience
